Subject: FCC File No. 0607-EX-PL-2013

Message:

Dear Behnam,

Per your request for information required based on NTIA manual section 8.3.28:

Item 1: The GPS repeater will be used only indoors as shown in the exhibit provided in the original submission

Item 2: The purpose of the application is to use experimental RNSS test equipment for the purpose of testing GPS receivers as described in the "Description of Research Project"; exhibit attached with the original submission

Item 5: The facility where the GPS repeater will be installed is under the control and ownership of LI-COR Biosciences who will be operating said equipment.

Item 6: Link budget calculations are supplied as an exhibit to this correspondence. Link budget calculation information is based on previous work completed by GPS Source.

Item 7: The employees in the indicated area shown in the facility drawing exhibit in the original submission have been notified of the use of a GPS repeater in their area.

Item 8: The purpose of the test equipment is for testing OEM GPS modules that will be installed into instrumentation that LI-COR Biosciences manufacturers. This will allow our production and technical support staff to test our manufactured instruments and repaired instruments while indoors.

Item 9: The point of contact will be myself, Derek Trutna. I am available from 8:00 AM to 5:00 PM central time at the following phone number:

Work: 402-467-0870

Title: Senior DSP Design Engineer and Project Manager

If there is other information that needs to be provided please let me know.

Best Regards,
Derek Trutna
LI-COR Biosciences
