Message:

1.radius of operation in km

I will need more clarification on this point on what is being asked. what is your definition of operation? Is the full link? Or the physical boundaries of the system with regards to the lat. and long? If its the latter than is app. .3km

2. latitude and longitude (coordinates) in format of degree, minute, and second.

43.06N,77.61W
