Subject: Request for Info - File # 0303-EX-ST-2019

---

Message:

1. It's for a ground station uplink or allow us to transmit from our location
2. For test purposes only, occasionally we will transit from our location to confirm a few uplink parameters. this is generally short test lasting less than 48 hours, intermittently. As a SATCOM system integrator, we do not have permanent transmitting stations, however our customers occasionally will go through an acceptance testing prior to receiving the products.
