Subject: FCC File #: 0172-EX-ST-2003

Message:

Dear Mr. David Bissonette:

In the section labelled 'Why STA is necessary' of application 0365-EX-ST-2002, it was stated that "A STA is required to finish lab tests and local field trials of our new Dual Band patented company product currently in development." The previous STA was granted with the understanding that it was to be used to "finish" the experiment.

Is it anticipated that the current application for an STA will be the last for this experiment? If not, why wasn't an application submitted for a regular two-year experimental license using FCC Form 442?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 06, 2003 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
