

Exhibit 1

This system is being used for the express purpose of conducting experimental operations described in the related application and required by US Coast Guard contract number DTCG23-98-R-AVT006 . It is proposed to use this system in conjunction with the testing of other systems to be operated at the same time to test and demonstrate upgraded and new systems under this same contract.

This unit will be used as a fixed system at several various temporary locations in the Charleston, SC area in order to test and demonstrate it's operations under contract requirements.
