Experimental License Branch
Re: Request for Modification of existing authorization
Call Sign: KK2XCJ File No.: 0109-EX-PL-2001

You will please find attached one completed copy of FCC Form 442, Application for Modification of Experimental Station Authorization, with the required FCC Form 159 and license processing fee, **\$50.00**, attached. This request for modification is only to add a new location and to expand the frequency band of operations, **10200 to 10500 MHz to 10000 to 10500 MHz**, for operations at our facilities located near **Moorestown, Burlington County, NJ**.

The facilities personnel also advises that the emissions and powers for the expanded range and the new site will be the same as previously authorized under file number 0109-EX-PL-2001. We are also advising you there will be the addition of two additional contracts for the testing of these systems. The first contract being added is, **N00024-00-C-5147**, with the United States Government to provide computer program for the Integrated Weapons System (IWS) to be sold to the Royal Norwegian Navy for use in the Norwegian New Frigate (NNF) Program. The second new contract is, **P6088-LMOC-01**, with the Lockheed Martin Overseas Corporation (LMOC) to produce, integrate and test 5 IWS's for use on the NNF's.

If you have any technical questions relating to application, please contact **Mike O'Donnell** on **(856) 722-3852** or email at mike.r.odonnell@lmco.com. Any other questions regarding this application can be directed to the undersigned on **(410) 682-2156**.

Very Truly Yours,

Claude E. Wells
