Attn: Experimental License Branch
Re: 0043-EX-PL-2004

You will find attached documents supporting the changes and amendments for the referenced Experimental License Request. This authorization is currently tabled at NTIA, to the best of our knowledge. The changes are to correct the coverage area, the emissions designator information.

We are requesting an expedite to this application as the deadline for the affected aircraft to move to Holloman AFB is approaching and these systems are critical to the development, testing and training of these aircraft.

Very Truly Yours,

Claude E. Wells
