Re: Modification of Existing Radio Station Authorization
Call Sign: WA2XNH File No.: 6136-EX-ML-1998

You will please find enclosed one completed copy of FCC Form 442, Application for Modification of Experimental Authorization, with the required FCC Form 159 and license processing fee, **\$45.00**, attached. This request is to modify our existing Experimental Radio Station Authorization, **WA2XNH**, operating on 38.6 Ghz in the vicinity of our facilities located near **Orlando, Orange County, FL**.

The modification being requested at this time is to include the operating area of the Continental US to our operations. We are proposing this as an addition to the current fixed mobile operations, to allow us to set up a ground site to be used with an airborne unit for testing and demonstrations at various sites and locations through out the United States. All remaining technical and administrative data remains unchanged at this time.

If you should have any technical questions regarding this application, please feel free to call **Skip Lentz** on **(407) 356-0515**. If you have questions regarding the completion of the application, please call the undersigned on **(410) 682-2156**.

Very Truly Yours,

Claude E. Wells
