

**ARLINGTON COUNTY, VA
OFFICE OF EMERGENCY MANAGEMENT
1400 N. Uhle St., Suite 300
Arlington, VA 22201**

May 26, 2005

Mr. Rick Mullikin
Program Manager, Wireless Coverage Prediction
Integrated Systems and Solutions
Lockheed Martin
12355 Sunrise Valley Drive
Reston, VA 20195

Dear Mr. Mullikin:

This letter will serve as authorization for your firm to conduct a wireless coverage prediction field test in Arlington County, Virginia. Preparation and conduct of the test shall be in accordance with the parameters discussed at the meeting you attended with Lisa Thompson, Radio System Manager, David Jordan, Chief Information Security Officer, and John Stevens, Program Manager, on May 18, 2005.

This office is pleased to cooperate with Lockheed Martin on this project, and we look forward to seeing the results of the test.

The individuals noted above will be your contacts throughout the engagement. Mr. Jordan is the primary contact with respect to Arlington's relationship with Virginia Tech, while Ms. Thompson and Mr. Stevens will be your primary contacts concerning existing Arlington County radio system, infrastructure and test coordination. I trust that the materials provided to you concerning sites, frequencies and infrastructure etc are sufficient for your needs.

Please provide us with a regular status report on your plans and accomplishments (a simple e-mail or telephone call will suffice) and we especially request close coordination as plans are firmed for the actual testing and the conduct of the same.

We look forward to seeing the results of the tests.

Sincerely,

Robert Griffin, Director
Office of Emergency Management
