

WC2XRP Exhibit C

Test tower directional horn antenna (AR Worldwide #AT4002A) orientation in the vertical plane is listed below for the three WC2XRP station locations:

- (1) Syracuse: -5deg pointing downward from horizon
- (2) East Syracuse: -5deg pointing downward from horizon
- (3) SouthSyracuse: -5deg pointing downward from horizon

The orientation in the vertical plane is pointed at the radar being intermittently tested, which is located near trees and buildings at all sites.
