**Attn:** Application Processing  
**Re:** 0084-EX-PL-2003

You will find attached information supporting the filing noted above. We have included a description of the program and reason for the filing. We have also included a sketch of the proposed radio tower the transmitter antenna will be attached. According to the FCC records for antenna registration the tower located at almost the identical coordinates belongs to Pinnacle Towers and carries a registration number of 1221895. The question is the address given the location the tower is listed as 9540 Weller Road, but we have an address for 1940 Weller Road. The correct address is 9540 Wells Road in Fremont CA.

Very Truly Yours,

Claude E. Wells
