

Exhibit A
Explanation for CONUS

The reason for moving the unit is for demonstrations to various potential customers, both US and international, at sites within CONUS. This is to allow demonstration in different environments, with different fields of view. LM facilities where this unit may need to be operated include Liverpool/NY, Suffolk/VA, and various locations in the South and Southwest. The unit has applicability to various Homeland Security and DOD missions, is an inherently transportable system providing short range land/border monitoring.
