Re: Applications for Renewal of Existing Authorizations
Call Sign: KA2XAK WA2XKE
KB2XBA

You will please find enclosed three completed copies of FCC Form 405, Applications for Renewal of Radio Station Authorizations in Specified Services, with the required FCC Form 159 and FCC license processing fees, **\$135.00 (\$45.00/application)**, attached. These applications for operations at our various facilities located in NY and FL.

There are no changes or modifications being requested at this time for any of these authorizations. There is one slight problem, **KB2XBA**, has a past expiration date. I talked to Frank Wright regarding this problem and he said that I could still file for a renewal. The problem occurred when this authorization was modified and renewed the other year, instead of getting a full two years I only received a one year extension. And the error was noticed until the site noticed the discrepancy, only after it had expired. All technical standards and administrative data are the same as originally licensed. This station is an active station and is required for testing our on going programs.

If there should be a problems or questions, please feel free to call the undersigned on **(410) 682-2156**.

Very Truly Yours,

Claude E. Wells
