Re: 0148-EX-ML-2005

This filing is to modify an existing authorization, KK2XCJ, for operations at our Moorestown, NJ facilities. We are requesting addition of frequencies and a new location for transmissions on the facilities property.

The frequencies and power are classified data and are being submitted to the FCC security offices per 442 instructions. Please contact Christopher Kabalo with any questions regarding this applications technical or classification needs.

Very Truly Yours,

Claude E. Wells
