Re: Special Temporary Authorization Request

This application for a Special Temporary Authorization Request is for our Naval Electronics and Surveillance Systems operations located in Moorestown, Burlington County, NJ. This authorization STA request is to temporarily replace the original authorization, which the site allowed to expire in 1999 and are currently in the process of filing for another permanent authorization to cover these operations at our facility. The original authorization was granted under call sign KK2XCJ and expired on 1 January 1999.

This authorization is critical to the continuing development, testing, manufacturing and training of Navy Personnel on specialized radar systems developed for the United States Navy under contracts, N00024-88-C-5104 and N00024-88-C-5140. These systems are vital to the US navy's continuing development of new equipment and systems being designed to provide the required national security for the United States and it's allies. I have attached a copy of the expired authorization for your reference and review.

If you should have any questions regarding this application, please feel free to call the undersigned on (410) 682-2156. If you have any questions regarding the technical aspects of this application, please call either Dave Clark on (856) 722-2678 or Michael Uibel on (856) 722-2135.

Very Truly Yours,

Claude E. Wells
