John,

Sorry for the late reply, I was out for emergency medical reasons Thursday and Friday. The stop buzzer contact isn't a person but our operations center. The number is 856 722 1258 or 856 359 3233

This is our operations center. It is staffed 24 hrs a day and is the actual secured room where the radio and encryptor are stored.

Thanks,

Ed
