Dear FCC:

Please accept this \$50 payment for the SECRET FCC STA that we submitted to the FCC office in Washington, DC. This request is to support the U.S. Navy's contractual requirements in Lockheed Martin's AN/SLY-2 contract (N000024-98-C-5422) in performance testing of the system. The AN/SLY-2 System will be deployed on U.S. Navy ships and is to provide a new Precision Direction Finding EW system for ship defense.

Should you have any questions please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Luban", written over a horizontal line.

Jeffrey Luban
