

Exhibit A

Government Contract Information

A 24 month renewal of KA2XBN is requested for the TPS-79 Primary Surveillance Radar (PSR) and a Thales TSA3521 Secondary Surveillance Radar (SSR) transmitting from the same integrated TPS-79 radar antenna.

Four of the TPS-79 PSR and SSR IFF integrated radars are proposed to operate in existing test facilities for domestic marketing and production factory acceptance testing supporting the following foreign or supporting US government contracts:

02/740/2007
12/AHM/FRA/2007
12/AHM/FRA/2008
010402
N66604-02-C-3365
N00019-00-C-0340

The TPS-79 PSR is a production radar manufactured by Lockheed Martin. The SSR is a Thales Model TSA3521 is a Commercial-Of-The-Shelf (COTS) IFF radar interrogator.
