Experimental License Processing
Re: Request for Renewal of Existing Radio Station Authorizations

You will please find enclosed one completed copies of FCC Form 405, Application for Renewal of our existing Experimental Radio Station License, with the required FCC Form 159 and FCC license processing fees, \$50.00, attached.

Our finance services group has delayed these applications for renewal due to errors in the processing of the check requests. The checks were forwarded to the Melon Bank lock box without the proper paper work attached and I have only just received the returned checks to attach to the applications.

If you should have any problems or questions regarding these applications, please feel free to call the undersigned on (410) 682-2156.

Very Truly Yours,

Claude E. Wells
