FCC File # 0290-EX-PL-2006

---

Message:

John Kennedy --

Our pending request for operating authority identified as File # 0290-EX-PL-2006 [Ref Number: 4721] includes an emission designator 15M0FXD. The second emission classification symbol was selected as X by reference to FCC 2.201 which lists eight choices to characterize the nature of the modulating signal. The X choice was made in anticipation of DoD security requirements to encrypt data being transmitted from classified systems.
