

Project and Contract Information

A renewal license is proposed for WG2XTH. The Raytheon NEWBI-6 IFF interrogator will be integrated with the TPS-77 radar and tested at three different Lockheed Martin radar test pads: one in Syracuse, NY, one in East Syracuse, NY, and one in South Syracuse, NY. This interrogator is limited to international marketing demonstrations and to fulfill the following Foreign Military Sales/commercial contract:

LVQ2TPS77
