Subject: RE: Experimental license coming due for renewal 11-1-15 call sign WF2XXK West Palm Beach FL-Status on file with FCC - update 0355-EX-RR-2015

Jonathan,

I spoke with Tim Lipke and Tony Betancourt regarding the "radius of operation" and provide the following as clarification.

The radius of operation is as follows:

1. 30-40 MHz: 81 km (43.74 NMI)
2. 1764 MHz - 2297 MHz: 37 km (20 NMI)

Please note that directional antennas are utilized for the frequencies contained within the 1764 MHz - 2297 MHz band
