Subject: FCC File No. 0375-EX-RR-2014

---

Message:

Of the seven frequencies the FCC has indicated as expired in GMF (118, 124, 120, 125.725, 128, 134, 136, all in MHz), the FAA will only grant authorization for 136 MHz. Please find the 136 MHz NGT number below, and the other six frequencies should be removed from the application.

The coordination number for the 136MHz assignment is NGT150072.
