

WC2XWZ Contract Information

A 24 month renewal is requested to maintain fielded ship traffic management systems and radar sensors under the following contracts:

Coast Guard Support Contract # GS-23F-0081K, order number HSCG44-13-F-PC2036.

In addition, radar sensor operation is intended for technology upgrade demonstrations to potential customers in coastal monitoring and security industries, integration evaluation, software testing, and USG/international client proposals using LMC funding.
