

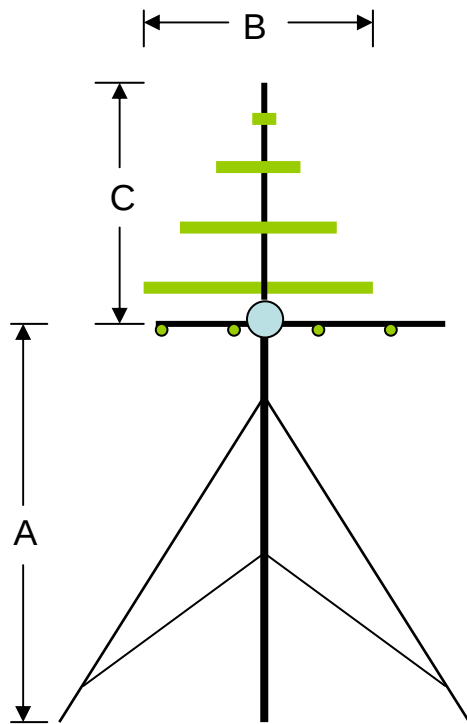

## Exhibit 003

$A = \text{xx}''$  = Antenna Base Height  
 $B = \text{xx}''$  = Directional Antenna Width  
 $C = \text{xx}''$  = Directional Antenna Length  
 $\text{xx}^{\circ}$  = Directional Antenna Beamwidth

For directional antenna operations, two Duplicate antenna will be used; one Vertical and one horizontal  
 $0^{\circ}$  = Vertical Plane Orientation  
For Horizontal Plane Orientation, see Exhibit 002 for each test operating area
