

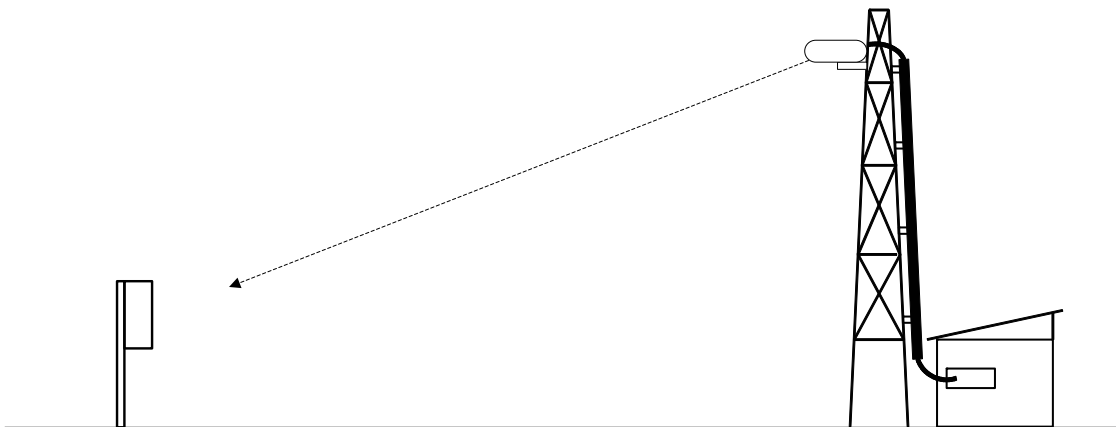

Exhibit 2

The Furuno 1823C navigation radar (FCC ID ADB9ZWRTR075) will be installed as shown below.

Tower: Furuno radar will be mounted to existing antenna tower.

Manufacturer: Furuno (FCC ID ADB9ZWRTR075)

Gain: 20 dB

Beamwidth: 5.2° azimuth, 25° elevation

Height: 27.5 m above ground level

Azimuth: 103.5 deg referenced to True North

Elevation: Pointed at 0° relative to horizon

Polarization: Horizontal

Transmitter Power: 2.2 kW

Blanking capability: Furuno radar is capable of a single blanked sector (set at one degree increments from 1° to 135°, centered at one degree increments from 0° to 360°)

ERP: 220 KW
