Southwest US)

~~~~~

This e-mail is your AFTRCC coordination.

The coordination includes this header information, DOD Area Frequency  
Coordinator comments, and AFTRCC comments. These messages must not be  
separated.

This recommendation is advisory only and not binding on the FCC. Applicants are  
advised that this coordination does not constitute a judgment that a recommended  
frequency is best suited to the applicant's purpose nor that the frequency is  
exclusive to the applicant. Flight Test frequencies are shared and may be  
subject to scheduling with other agencies.

In return for AFTRCC's processing of the applicant's coordination request, the  
applicant agrees to release and hold harmless AFTRCC, its officers, directors,  
members, agents and representatives from any claims, losses or expenses which  
may arise as a result of the applicant's use of these frequencies.

This coordination is not an authorization to operate. The FCC must grant the  
applicant authorization to transmit. A copy of this coordination must accompany  
your application to the FCC.

Steve,

I've already coordinated with all the other affected DoD AFC's, and have received concurrence. Is WAFC able to concur as well?

All: This is a heads up for a 1 time flight using TM freqs from Ft. Worth to Edwards.

WAFC will schedule it in IFDS. Once it arrives @ AFFTC Edwards, Edwards should capture the IFDS scheduling from there for the continued on ground tests.

Call with questions

paul.crice@navy.mil

AFTRCC concurs and requests coordination for an STA to support F35 AA-1's ferry flight from Fort Worth to Edwards AFB, within the area of responsibility for the DoD AFC WAFC, detailed as follows:

Usage: To conduct data telemetry operations in support of F-35 ferry flight. This will be a for one flight only plus any required ground test.

Applicant:

Lockheed Martin Aero - Fort Worth

P.O. Box 748

MZ 5826

Fort Worth, TX 76101

POC: Mr. Don P. Barnett 817-777-3826 or 817-205-5313

Email: don.p.barnett@lmco.com

Frequencies: 1486.5 and 1495.5 MHz

Emission 15M0F7D and 3M00F7D

Power (Watts) W10 (7.67W ERP)

Class: MO

Altitude: 0 to 40,000 Feet

Areas of operation: Area necessary to support operations for either a northern or southern route flight path including the specified waypoints:

South Route Waypoints

Site Latitude Longitude

Naval Air Station Joint Reserve Base Fort Worth 32°46'13.40"N 97°26'13.11"W
