

DEPARTMENT OF THE AIR FORCE
WASHINGTON DC

OFFICE OF THE ASSISTANT SECRETARY

To: Federal Communications Commission
Office of Engineering and Technology

Major Mike Plantenga of the Office of Space & Technology, SECAF (AFSPC), Pentagon, supports the experimental testing proposed by Lockheed Martin in this application. We are interested in the results of the test as they may lead to developing further security measures for wireless technologies used for various military applications. Given the importance of improving technologies associated with secure wireless systems we request that the FCC approve this application.

If you have questions regarding this matter you may contact me at 703-808-2431 or via unclassified email at mplantenga@gmail.com.

A handwritten signature in black ink, reading "Michael S. Plantenga", is located in the bottom right corner.
