---

Message:

Mr. Ghaffari,

Rather than provide coordination for the 2332MHz, I've ammended the request to drop the 2332MHz frequeuncy from the application. I've also corrected the typographical error in the 2292Mhz emission designator to be 19M4W7D.

I appreciate your help in pointing out these details. Please contact me if you have any questions or concerns with how I've appled for the appliction in the OET website.
