Subject: FCC File No. 0409-EX-ST-2012

---

Message:

1. The Purpose of Operation.

The purpose of operation is to perform flight tests and demonstrations of the current and next generation Desert Hawk unmanned aerial vehicle within Restricted Airspace at Ft Drum, NY. Developmental flights are necessary to evaluate and test our latest avionics, payloads, and ground control station upgrades.

2. A US Military Government Contract Number.

Lockheed Martin does not have a US Military Government Contract Number related to the Desert Hawk developmental flight tests at this time. Development flight tests will be conducted in pursuit of future contracts.
