

## **Program Description**

All demos are ground demos, no airborne. In each case this is by Gov't request

- PEAK Demo at Ft. AP Hill – the Gov't asked us to participate in an exercise to test MONAX to be added to the PEAK Kits (pre-positioned Comms Kits for use in emergency/disaster situations). The test is at Ft. AP Hill near Fredericksburg, VA from July 18-22. There are two locations we would move between, list below. I would recommend 2 km radius at each site. We would like a full power license for this event
  - SITE 1 - Lonesome Gulch Pond
    - Deci Degrees: -77.346920 38.101284
    - DDMSS: 77°20'48.914"W 38°6'4.622"N (lat/long)
  - SITE 2 - Wilcox Camp Site Building 1634
    - Deci Degrees: -77.290464 38.100042
    - DDMSS: 77°17'25.67"W 38°6'0.15"N
