So, in other words, it isn't a US Army contract number. If not, then I will have to process it as an XD or XT, but not for XC (eXperimental for Development or Testing, but not for Contract). Please confirm.

According to David could find out this is a commercial venture between the US, Germany and Italy. MEADS, Inc is the commercial Joint Venture they have created for this Missile Defense Detection system. The contract people at Syracuse can't even figure out who the contact person is for this contract. It is a rather complex structure, apparently. It is basically testing to see if a component will work with the over all system.

Claude here is the contract number

MIDD040002

. It is not a typical Army contract number so it hopefully it is what they need. Sorry it took a while its has been a very busy day.

Mr. Wells,

I need the contract number(s) and name(s) of the contracting government agency (or agencies)?

John W. Kennedy  
Federal Communications Commission  
Experimental Licensing Branch  
(202) 418-2484
