Re: Expediate Request for 0597-EX-ST-2005

We, the Lockheed Martin Corporation, respectfully request expedited treatment of the referenced Special Temporary Authorization application. We request this expedited handling due to contractual changes in our existing DoD contract requesting an earlier testing and demonstration period for the contracted systems. In the filing we requested a start date of October the 25th, 2005. We respectfully request if there is a possibility to get an earlier approval date to start testing it will be helpful in meeting the new testing and demonstration dates for this new system for the US Navy.

Very Truly Yours,

Claude E. Wells
