RE: Correspondence number 25207

The purpose of our testing is conduct experimental operation of multi-function antenna to confirm the design integrity and compliance with Navy systems specification SPAWAR-A-867F in accordance with U.S. Navy government contracts N0039-09-C-0038 and N0039-12-C-0092. The multifunction mast is approximately 14' long and is depicted below:
