

Exhibit I

This proposed experimental radio station is to provide video link information from remote controlled experimental robots. These units are being developed and tested for autonomous intelligence and learning capabilities. The new transmitters will provide visual capabilities to the units and information for the control personnel.

Exhibit II

The proposed areas of operation for the testing of the robotic equipment with the video links are as follows:

<u>Latitude</u>	<u>Longitude</u>	<u>City</u>	<u>County</u>	<u>State</u>
39-19-49 N.	076-26-04 W.	Middle River	Baltimore	MD
39-20-36 N.	076-17-42 W.	Aberdeen	Harford	MD
39-28-00 N.	076-06-25 W.	Aberdeen	Harford	MD

All operations will be within 1 **KMRA** of each of the sites listed above.
