Re: Experimental Radio Station Application

You will please find enclosed one completed copy of FCC Form 442, Application for New Experimental Radio Station Authorization, with the required FCC Form 159, Fee Admittance Advice Form, and FCC license processing fee, \$45.00, attached. This request is for the teting and demonstration of V-Sat communications in the band of frequencies between 1626.5 to 1646.5 Mhz. The station will be in operations at our facilities located near Eagan, Dakota County, NV.

You will find several attachments included in response to items 4 and 10 on the applications form. If you should have any technical questions regarding the system or the proposed operations, please feel free to contact Terry L. Hoke, Engineer, (612) 456-2023 or e-amil terry.l.hoke@lmco.com, any questions regarding the completion of the application can be dirested to the undersigned on (410) 682-2156.

Very Truly Yours,

Claude E. Wells
