Dear Mr. John Kennedy

In response to your questions:

1. ☐ Please summarize how your earth station antennas will transmit that will transmit (fixed, temporary fixed, mobile) to AMC-9, IA-6 and IA-7.

Earth Station Antennas will be a combination of Temporary fixed/base and Mobile

- ☐ The Tampa Microwave Labs Satellite Emulator DBSE will be temporary fixed/base
- ☐ The Rantec 11.5 Antenna will be temporary fixed and mobile

2. ☐ Are mobile operations being requested within a 16.09 km radius of the reported geographical coordinates?

YES- Mobile operations being requested within a 16.09 km radius of the reported geographical coordinates for both Taunton, MA and Ft. Huachuca, AZ.

3. ☐ Is this experiment a continuation of the operations under 0383-EX-ST-2005 and 0473-EX-ST-2005 in which an 11.5 antenna is being used for satellite communications on-the-move?

YES -This experiment a continuation of the operations under 0383-EX-ST-2005 and 0473-EX-ST-2005 in which an 11.5 antenna is being used for satellite communications on-the-move.
