

Request for Expedited Treatment

Lockheed Martin is requesting expedited treatment of the STA application, File Number 0484-EX-ST-2009, submitted on 2 October. This STA is required to allow testing at four sites to develop and verify performance of the K-1200 Rotary Wing Aircraft. The Marine Corp intends to deploy this equipment overseas to theaters of operation in the first quarter of 2010 for use by US war fighter.
