

Exhibit 1

I am attempting to register a Mobile SATCOM Terminal with the FCC in support of IRAD Efforts and a demo for TSAT. I submitted the registration on the FCC website a few weeks ago, attached below, but I have not heard anything as of yet. The contact is listed as Mike Briske who is in my Management Chain, but I am the lead technical person. I just became aware that we had a Corporate contact for dealing with the FCC and I was hoping you could check on the progress of my application and add the following area of operations, which I only recently became aware of. This is the third SATCOM Terminal we have registered with the FCC. I appreciate any help you can provide, Thanks for your time. Feel free to call me with any questions at the lab number below or on my cell, 240-643-5112.

Additional Area of Operations: LM Sunnyvale, CA - 5 Mile Radius Around 37°24'55.20"N, 122°27.01"W
