Jai,
Put the following sequence in:

1st Column: P

2nd Column 1

3rd Column: D

In case you are interested, these numbers come from section 2.201 of the FCC rules.

Best regards,
Jon

Sir,

In the Emissions column of the pdf file I sent you earlier, there are 3 subcolumns under Emission. The First column consists of the following alphabets (choose one out of the following): N,A,H,R,J,B,C,F,G,D,P,K,L,M,Q,V,W,X. In the 2nd column, we have the following alphanumeric: 0,1,2,3,7,8,9,X. In the 3rd column: N,A,B,C,D,E,F,W,X.

In the last column under bandwidth, we can choose the bandwidth from khz to GHz range.

I hope this helps.

Regards,

Jai
