

Request for Modification of Station License

Magnolia Broadband, Inc. ("Magnolia") hereby requests a modification of its experimental station license (Call Sign WC2XWG) to include the following additional frequencies in the Cellular Radiotelephone Service bands:

824-849 MHz

869-894 MHz

The purpose of this modification is to allow Magnolia to utilize non-type accepted equipment in the Cellular Radiotelephone Service bands in connection with its experimental program. Magnolia will coordinate with authorized users before commencing experimental operations in these bands. All other particulars regarding its experimental program, as disclosed in its license application (File No. 0038-EX-PL-2002; granted April 10, 2002), remain the same.
