

Amendment

Magnolia Broadband, Inc. ("Magnolia") hereby amends its pending application for a new, experimental station license (File No. 0038-EX-PL-2002) to include the following additional frequencies in the unlicensed PCS band:

1910-1930 MHz

The purpose of this amendment is to allow Magnolia to utilize non-type accepted equipment in the unlicensed PCS band in connection with its experimental program. All other particulars regarding its application remain the same.
