Subject: FCC File # 0562-EX-ST-2004

Message:

Dear Mr. John Gifford:

1. Please describe this experiment in the Purpose of Operation of the Questions section or by submitting an exhibit.
2. Please complete all technical parameters (frequencies, powers, emissions designator, etc.) in the Transmitter section.
3. Please determine whether or not you should request the special temporary authorization from the Wireless Telecommunications Bureau as opposed to the Office of Engineering and Technology (Since a lightening strike appears to have taken a transmitter out of service, this application does not appear to be a request for an experiment).

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of September 21, 2004 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
