Message:

Dear Mr. Mike Malloy:

Please address the following:

1. Provide a description of the method of operation.
2. Will tests be performed on discrete frequencies or by sweeping through the band?
3. What measures will be taken to ensure that the testing does not interfere with existing operations in the band (i.e. is there terrain shielding around the test sites or will the testing be performed indoors)?
4. What will be the typical duration of the tests and how often will they be run?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 14, 2003 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
