Subject: Request for Info - File # 0676-EX-CN-2026

Message:

A) What is the relationship between your pending application No: 0676-EX-CN-2026 and your current experimental license No. 1268-EX-CN-2025?

B) If these 2 applications are not related to each other, NASA is requesting Antenna directivity characteristics and specific intended operational frequencies and bandwidths since the 4G00F0N emission designator seems to be a placeholder. This request would be for application No: 0676-EX-CN-2026.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 28, 2026 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
