Pittsburgh, PA 15251

Sirs:

Enclosed are the renewal applications and payment in the amount of \$90.00 for Experimental Stations KC2XAV and KC2XAW.

These licenses are held at federal government facilities, namely the Navy Radio Transmitter Facilities (NRTFs) at Republic, Michigan and Clam Lake, Wisconsin. Due to an award of the Operations contract for these facilities the company name has changed from INTELCOM Support Services, Inc. to Manufacturing Technology, Inc. (MTI). The Navy's Operations and Maintenance contract number for MTI at both facilities is now N00600-93-C-0614.

Mr. Frank Wright of your office has been contacted by Mr. Tom Wakefield of MTI concerning renewal of these licenses.

Thank you for your continued support in filing these applications.

Sincerely,

Mark J. Heinlein
