Re: "Please check and confirm the coordinates for Delaware Bay, DE location."

The coordinates in the application are for North 38 deg, 52 minutes, 28 seconds and West 75 deg, 1 minutes, 59 seconds. I have confirmed that is the intended center location of our mobile station, approximately half way between Cape May, New Jersey and Lewes, Delaware at the mouth of the Delaware Bay. Please advise if you have additional questions.
