To Whom It May Concern:

This is a letter of introduction for the FCC Form 442. We are requesting to operate an Inmarsat-C terminal from a land-based location within the United States.

We are a merchant mariner training facility conducting training in navigation, safety and communications (GMDSS). We are currently in the process of conducting a class at this time and request activation as soon as it is possible. Part of the GMDSS system is use of an Inmarsat terminal. We currently possess a marine coast station license for the VHF, MF, HF equipment, but need permission for the Inmarsat-C terminal.

If you require any thing from me, I can be reached at the above numbers or at 954-292-2904 (cellular).

Thank-you

David A. Greenspan
