Attn: Frequency Liaison Office
Office of Engineering and Technology

You will please find enclosed one copy of the completed FCC Form 402, Application for a new Experimental Radio Station Authorization, with the required FCC Form 155 and FCC license processing fee, \$35.00, attached. This request is for the use of frequencies between 138.0250 and 152.0750 MHz in the vicinity of Camden, Camden County, NJ.

These frequencies will be used for the quality assurance testing of specialized radio equipment being developed and produced for the U.S. government, under contract #DAAB07-91-C-M360. If you have any technical questions regarding this application, please contact John McMackin on (609) 338-4822.

You will also find enclosed a completed copy of the FCC Form 702, Application for assignment of an Experimental Authorization, KK2XCJ, originally assigned to the General Electric Company. This authorization was overlooked in the initial round of assignments as a result of the merger between the General Electric Company and Martin Marietta Corporation. This is a highly classified authorization and requires proper classified treatment going to the site in Moorestown, NJ.

If you have any questions related to the completion of these applications, please feel free to call the undersigned on (410) 682-0156.

Very Truly Yours,

Claude E. Wells
