Message:

I will submit the application fee as soon as I receive account access for Form 159. This is being updated due to a retirement in our organization and lost account credentials.

Can you tell me what you require in the way of a "detailed exhibit that describes our your request"? We are looking to install a GPS repeater system from GPS Source, Inc. in our hangar to provide a GPS signal to our aircraft avionics systems. I've attached a drawing of our facility with placement of the emitter to the original application.

Thank you!
